#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 23 October 2006.
- 2a) This action is **FINAL**.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Drawings*

Figure 4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Inoue et al. (hereinafter Inoue).

In regard to claim 1, Inoue discloses a container for a stick type cosmetic comprised of an outer cylinder 1 (see Figure 2), a cylindrical cover 27, a cylindrical holding member 3 which is rotatable relative to the outer cylinder, a stick-type cosmetic

material 37 which can be extended from and retracted into the holding member 3 when the outer cylinder 1 and holding member 3 are rotated relative to each other, a hermetically-covering cylindrical member 35 on the inner surface of the cover, a cylindrical fitting member 7 on an upper portion of the outer cylinder, an annular rib 31 on an outer surface of the fitting member wherein the rib an outer surface of the lower end of the hermetically-covering cylindrical member 35 and a gap (not numbered, see Figure 2) between the outer surface of the lower end of the hermetically-covering cylindrical member 35 and an inner surface of the cover 27 wherein the gap serves as space for allowing deformation of the lower end of the hermetically-covering cylindrical member 35 (upon insertion of the cap, the metal rib 31 will have to deform member 35 in order to reach the groove 33).

In regard to claim 2, a receiving member 13 holds the cosmetic and is movable as claimed and the rib is positioned at substantially the same height as the upper portion of the receiving member when the receiving member is in a lowest position.

In regard to claim 3, a cylindrical sealing member 23 is positioned inside the fitting member 7 so as to slidably and hermetically contact an outer surface of the holding member 3.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Mack reference is cited for disclosing another sealing cap for a stick type cosmetic.
